Celtic Pattern

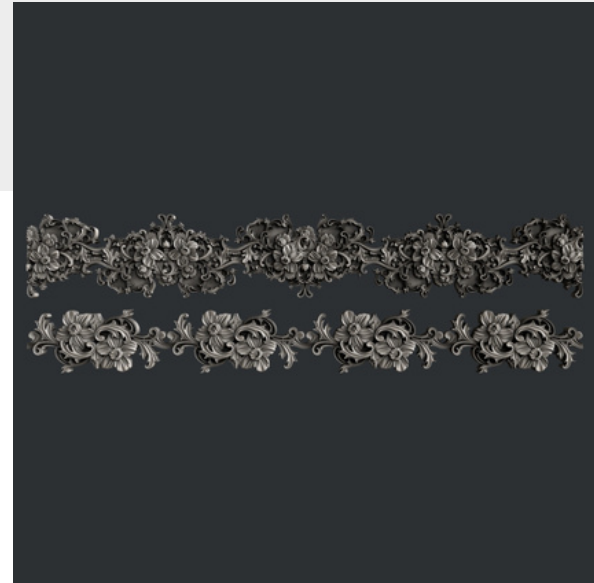

Celtic patterns are a type of intricate knotwork designs that have their origins in the early medieval art of the Celts, a group of people who inhabited much of Europe during the Iron Age and beyond. The patterns are characterized by their complex interlacing lines, spirals, and knotwork, and are often used in art and design to convey a sense of ancient mysticism and symbolism. This particular design took a lot of work, but we couldn't be happier with the results!
